STATE CLEARINGHOUSE

NEWSLETTER

May 16 through 31, 2002

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents, federal notices and federal grant applications received by the Clearinghouse during the period **May 16 through 31, 2002.**

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse.html#clearinghouse

Questions regarding federal grant notices should be directed to Sheila Brown.

Questions regarding processing of environmental documents should be directed to:

Katie Shulte Joung and Karen Fowler (for projects in Northern California)
Scott Morgan and Brian Grattidge (for projects in Southern California)

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 222) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

CEQA & Planning Case Law

Summary of Recent CEQA & Planning Case Law

The following are summaries of recent court cases relating to the California Environmental Quality Act and/or land use planning law.

No Cases have been selected for the period of May 16 - 31, 2002.

Please be advised, the information contained in these summaries does not constitute legal advice, nor should the summaries be relied upon as a matter of law. Refer to the full text of the cases cited for the complete ruling and case facts.

Federal Notices

Intergovernmental Review Notices (May 16th – 31st)

The following are notices received by the State Clearinghouse from federal agencies in compliance with Executive Order 12372. If you would like more information about the subject matter, please contact the agency representative listed below.

Agency: NASA Ames Research Center
Contact: Sandy Olliges
Telephone: (650) 604-3355
E-mail: Solliges@mail.arc.nasa.gov
Address: MS 218-1, Moffett Field, CA 94035-1000
Description: The current Human Health Risk Assessment Draft Work Plan for NRP is proposing the use of groundwater volatilization modeling, based upon data from 90 groundwater wells, to calculate NRP wide risk isopleths.
Comment By: June 24, 2002

Agency: United States Army Corps of Engineers
Contact: Elizabeth Dyer
Telephone: (415) 977-8451
E-mail: Edyer@spd02.usace.army.mil
Address: Regulatory Branch, 333 Market Street, San Francisco, CA 94105-2197
Description: On May 15, 2002, the U.S. Army Corps of Engineers issued a public notice (2614N) regarding an application for a Department of the Army permit to place fill into 0.05 acres of jurisdictional waters of the United States (coastal brackish marsh) for the purpose of preparing an existing drilling pad for an exploratory natural gas well. This application is being processed pursuant to the provisions of Section 404 of the Clean Water Act and section 10 of the Rivers and Harbors Act of 1899.
Comment By: May 30, 2002

Agency: United States Army Corps of Engineers
Contact: Jennifer Hayworth
Telephone: (415) 977-8438
E-mail: Jennifer.d.hayworth@usace.army.mil
Address: Regulatory Branch, 333 Market Street, San Francisco, CA 94105-2197
Description: On May 15, 2002, the U.S. Army Corps of Engineers issued a public notice (25304N) regarding an application for a Department of the Army permit to place fill material into

approximately 0.93 acre of jurisdictional waters of the United States and to place fill, for the purpose of bank stabilization, along both banks of a 400-foot segment of stream to facilitate the construction of a new vineyard. This application is being processed pursuant to the provisions of Section 404 of the Clean Water Act.

2000091062	<p>Arroyo Seco Master Plan Pasadena, City of Pasadena--Los Angeles</p> <p>The nature and purpose of the proposed project is to provide facilities for passive and active recreation that support Policy 9.2 of the City of Pasadena's Comprehensive General Plan in order to provide recreation facilities and programs to meet the diverse needs of City of Pasadena residents and visitors. The Arroyo Seco Mster Plan (HWP), (2) Central Arroyo Seco Master Plan (CAMP), (3) Lower Arroyo Seco Master Plan (LAMP), (4) Rose Bowl Operations Company (RBOC) Use Plan, and (5) Design Guidelines.</p>	EIR	07/31/2002
2001082004	<p>Antelope - Roseville Road Shopping Center Sacramento County --Sacramento</p> <p>The proposed project is a request for a Zoning Ordinance Amendment and related entitlements to allow development of a shopping center, including 250,000+/- s.f. of retail space, primary service station, car wash and convenience market within the Antelope Station Special Planning Area (SPA). The project site is 32.9+/- gross acres (30.7+/- net acres) in size and consists of three Assessor Parcels (APNs 209-072-002; 209-0110-022 and 023). The project site is located on the northwest side of Antelope Road, west of Roseville Road within the Antelope Community Planning Area (see Plates PD-A and PD-B). The Union Pacific Railroad property is located along the northwest property line. Amend the "Main Street Commercial Area" (15+ acres) and a portion of the "Industrial/Office Area" (8.9+ acres) to "Shopping Center Commercial Area" (totaling 23.9+ acres). Amendments to the text and exhibits of various ordinance sections and the Design Guidelines of the SPA to enable the proposed development. 2. A Tentative Parcel Map to divide 32.9+ gross (30.7+ net) acres into eight (8) lots in the SC zone. 3. A Development Plan Review pursuant to section 507-25 of the Antelope Station SPA to allow the development of a shopping center, including 250,000+ square feet of retail space, primary service station, car wash and convenience market. 4. A Use Permit to allow a primary service station and an automated car wash in the Shopping Center Commercial Area" of the Antelope Station SPA. 5. An Amendment to the "Antelope Group Transportation Systems Management Association" Plan (Control No. 88-TMP-1565) as required by section 507-32(b) of the Antelope Station SPA. 6. A Special Review of Parking (PRP) to deviate from the minimum required amount of 8-foot by 16-foot landscape finger islands within the improved on-site parking lot area, pursuant to SCZ section 330-94(c). 7. A Special Review of Parking (PRS) to allow shared parking between the proposed five parcels.</p>	EIR	07/01/2002
2000112061	<p>University Palms Project East Palo Alto, City of East Palo Alto--Santa Clara</p> <p>The applicant proposes to construct a mixed use building containing 20,783 square feet of retail area and 182,027 square feet of office area. 608 parking spaces are proposed to serve the project.</p>	FIN

	kilometers), allowing for passing opportunities.		
2002052078	MS010021 Contra Costa County Community Development Lafayette--Contra Costa The applicant requests approval to subdivide 1.17 acres into (4) four lots.	Neg	06/14/2002
1997052050	Goldridge Rezoning and Phase I Tentative Map Fairfield, City of --Solano Wetlands will be filled for construction of single family homes in a planned community with parks, schools, and open space preserves on the 250 acre project site. To mitigate for the loss in wetlands, the operator will create 3 wetland mitigation areas totaling 2.7 acres. The 3 seasonal wetlands will be created by grading lower than the existing wetlands to collect high surface flows from the existing drainages. CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2001-1022 pursuant to Section 1603 of the Fish and Game Code to the project operator, Vince Fletcher/Schuler Homes of California.	NOD	
1998042071	Sanitary Sewer Connection, Sacramento International Airport Environmental Protection Agency, California --Sacramento Proposed project would provide for future means of sanitary sewage disposal at Sacramento International Airport by providing for the connection of the airport system to the County's municipal wastewater collection and treatment system. Two option, described below and analyzed in this Initial Study, have been proposed to accomplish the project objective.	NOD	
1999081020	The Ranch La Quinta, City of La Quinta--Riverside Includes two 18-hole public golf courses with a 25,000 square foot clubhouse as well as a 9-hole public golf course providing a junior golf program. The proposed resort uses would include a 250-room hotel with a 10,000 square foot conference center, 300 Timeshare units, fractional or condo hotel units (Timeshare) and 25,000 square feet of ancillary commercial uses.	NOD	
2001071149	Picayune Rancheria of the Chukchansi Indians Casino National Indian Gaming Commission --Madera CDFG is executing a Lake and Stream Alteration Agreement, pursuant to Section 1603 of the Fish and Game Code, to the project applicant, Picayune Rancheria of the Chukchansi Indians. The applicant proposes (1) placement of a culvert where the new access road crosses an ephemeral stream. Soil fill will be used to cover the crossing, and erosion control measures shall be implemented. (2) Approximately 15 feet of length will be added to the two existing culverts to facilitate the widening of State Highway 41. A retaining wall will be constructed. (3) Reconstruction of the spillway on the stock pond. The pond's beam will be raised by three feet to accommodate increased storm runoff from 10 and 100-year peak flows.	NOD

2001072035	Cerrito Creek Restoration El Cerrito, City of El Cerrito--Contra Costa The operator proposes to enhance 800 feet of Cerrito Creek between Talbot Avenue and Kains Avenue, along the southern edge of the El Cerrito Plaza Shopping Center on San Pablo Avenue in El Cerrito, Contra Costa County. A meandering low flow channel will be created in the existing bed. The existing north bank (consisting of earth, concrete, grout, and asphalt) will be regraded to accommodate a 2:1 earthen slope, an 8 foot path, and another 2:1 earthen slope up to the parking lot (6 feet). This will result in a gain of approximately 34 feet of bank. Both slopes will be planted with native trees and shrubs. CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2002-0087 pursuant to Section 1603 of the Fish and Game Code to the project operator, Jill Keimach/ City of El Cerrito.	NOD	
2001102040	CSU California Maritime Academy Master Plan Maritime Academy, California Vallejo--Solano Physical Master Plan and Program EIR for future development of 1,100 FTE university and ancillary facilities, including renovation of existing facilities, new construction, and acquisition of six acres for future additional facilities.	NOD	
2002022022	University Union Expansion Project California State University, Hayward --Alameda The proposed project will provide approximately 28,840 GSF for student organizations, food service, meeting rooms, commuter lounge and study spaces in a new structure adjacent to and south of the existing University Union. Approximately 10,000 GSF in renovations will provide minor modifications to the existing University Union and a basement tunnel for existing utilities to serve the new University Union expansion project.	NOD	
2002041001	Westside High School Construction Project Val Verde Unified School District Perris--Riverside The high school will initially accommodate approximately 2,500 students in grades 9-12, and ultimately have capacity for 3,000 students. The school will employ between 150 and 200 teachers and support staff. The project involves construction of 56 standard classrooms, with areas allocated for another 32 future classrooms. Additional classroom facilities realized under the project will include science classrooms, music classrooms, and technical and vocational arts classrooms. A library/media center, performing arts theater, and gymnasium with shower and locker rooms are also proposed, along with a full service kitchen and cafeteria. Administrative offices, outdoor lunch shelters and kiosks are also included in the campus design. The high school campus will also include a 3,000 seat stadium for athletics, with associated ticket kiosk, snack bar, press box and restroom facilities.	NOD	
2002059031	Streambed Alteration Agreement R3-2002-0049, NTMP1-01NTMP-039 MEN Forestry and Fire Protection, Department of --San Luis Obispo The applicant proposes to install two permanent culverts in two small intermittent streams. The two culverts are with 50 feet of each other at the juncture of two channels. The proposed activities are on a permanent existing skid trail crossing	NOD

2002052080	James C. Enochs High School Modesto City Schools Modesto--Stanislaus Modesto City Schools is proposing to construct a new high school in Stanislaus County. The proposed site for James C. Enochs High School is approximately 70 acres in size and located in the northeastern portion of the City of Modesto. The site is bounded by agricultural uses to the east and north. The Sylvan Veterinary Clinic and rural ranchettes make up the site's western boundary. There are other rural residential developments south of the project site, on the southern side of Sylvan Avenue. The proposed project includes construction of a high school campus including various academic buildings (home economics, science, industrial technology, etc.), an administration building, cafeteria, gymnasium, boys and girls locker rooms, a media center, and snack bar. In addition, the campus will include a swimming pool and various sports fields.	NOP	06/17/2002
2002052081	Joseph A. Gregori High School Modesto City Schools --Stanislaus Modesto City Schools is proposing to construct a new high school in Stanislaus County. The proposed site for Joseph A. Gregori High School is approximately 80 acres in size and located in the Salida area, north of the City of Modesto. The site is surrounded by agricultural lands and rural residential on the north and south, agricultural lands to the east, and a technology park, career school, small manufacturing and offices to the west across Stoddard Road. The site is currently in private ownership under one single owner. The proposed project includes construction of a high school campus including various academic buildings (home economics, science, industrial technology, etc.), an administration building, cafeteria, gymnasium, boys and girls locker rooms, a media center, theater and snack bar. In addition, the campus will include a swimming pool, sports fields and an outdoor stadium.	NOP	06/17/2002
2002052083	Lathrop Station Lathrop, City of Lathrop--San Joaquin The Lathrop Station project involves approximately 151 acres of urban development authorized in the City of Lathrop in its adopted West Lathrop Specific Plan known as Stewart Tract (5,794 acres) and Mossdale Village (1,161 acres). Lathrop Station is located within the Mossdale Village portion of the WLSP area. Mossdale Village is planned as a residential community centered around a village Commercial area and also encompasses regional commercial areas.	NOP	06/17/2002
2002051098	Water Group 533 San Diego, City of San Diego--San Diego The City of San Diego proposes to install approximately 1.4 miles (7,320 feet) of new 16-inch PVC water main in new alignment eight to twelve feet deep along North Harbor Drive between Mitcher Road and Laurel Street. The new main would proceed along North Harbor Drive in two non-continuous segments on each side of Lindbergh Field connecting with a 16-inch water main in the jurisdiction of the San Diego Unified Port District. The project includes abandonment of 1.4 miles (7,320 feet) of existing water main and resurfacing of the North Harbor Drive. The project is located in the Port of San Diego Master Plan, Harbor Island/Lindbergh Field Planning District 2, Coastal Overlay Zone (San Diego Unified Port District	Neg	06/17/2002

2002051099	Former Santa Ana II Manufactured Gas Plant Site Remediation Project Toxic Substances Control, Department of Santa Ana--Orange Excavation and removal of approximately 1,650 cubic yards of contaminated soils in accordance with the methods, and procedures presented in the Removal Action Workplan (RAW) for the site. After successful completion of the removal action, excavated areas will be backfilled with clean soil.	Neg	06/17/2002
2002051101	Zone B Pipeline Extension Project Irvine Ranch Water District Irvine--Orange 5,800 lineal feet of 24-inch reclaimed water pipeline.	Neg	06/17/2002
2002051103	Stevenson Park Community Center Gymnasium Carson, City of Carson--Los Angeles The construction of a new Community Center at Stevenson Park located at 17400 Lysander Drive in the City of Carson. The new Community Center will be a 14,000 square foot facility consisting of a gymnasium with basketball courts, restrooms, weight room, multi-purpose room, kitchen, patio and office space. The improvements will be constructed where a wading pool currently exists. Minor landscaping improvements would also be included.	Neg	06/17/2002
2002051104	Veterans Skate Park Carson, City of Carson--Los Angeles The construction of a new 10,950 square foot Skate Park at Veterans Park located at 22400 Moneta Avenue in the City of Carson. The Skate Park would be constructed on the north side of Veterans Park. Approximately 20 parking spaces would be lost from construction of the project; however, the City has entered into an agreement with Caroldale Elementary School to allow for the use of a schoolyard area for additional parking. The proposed improvements for the Skate Park would include a new parking lot and various skate ramp facilities. Minor landscaping improvements would also be included.	Neg	06/17/2002
2002051105	Proposed Ballfield and Park Highland, City of Highland--San Bernardino Four lighted baseball fields, attendant snack bar/restroom structure, soccer field, picnic and tot lot areas, pedestrian circulation system, onsite parking and landscaping.	Neg	06/17/2002
2002051106	Williams CHP Station Replacement Project California Highway Patrol, Department of Williams--Colusa A new CHP station is proposed to be built near the intersection of E Street and Husted Road. This facility would replace an existing station located at 735 North Seventh Street, Williams, CA, approximately three miles west of the proposed project site. The current facility is temporary and lacks adequate space for staff and equipment. The project design is compatible with the setting and use of the Valley Ranch Business Park and the project would not affect any natural resources of the Business Park. The relocation of the CHP facility would provide	Neg	06/17/2002

	effective response time for its primary mission, "management and regulation of traffic to achieve safe, lawful, and efficient use of the highway transportation system."		
2002051119	Old Town Southern Gateway/Rotary Park Expansion Project Temecula, City of Temecula--Riverside The proposed development of the Old Town Southern Gateway Landscaping/Rotary Park Expansion project will provide roadside recreational improvements including landscaping; hardscape and greenways, pathways, benches, arbors and the development of educational, environmental and interpretive areas. The proposed project will incorporate two parcels of land located at the northeast and southwest sides of First Street Bridges at Murrieta Creek, between Pujol Street and Front Street in the City of Temecula. This project will provide additional parkland and roadside recreational opportunities and will compliment regional efforts to construct future improvements within Murrieta Creek.	Neg	06/05/2002
2002052079	Fisher Grading Permit (EIAQ-3680) Placer County Planning Department Auburn--Placer Installation of a bridge structure across Doty Ravine to provide driveway access to property.	Neg	06/17/2002
2002052082	Dow Sulfuryl Fluoride Facility Replacement Pittsburg, City of Pittsburg--Contra Costa Construct a 125 foot high, (4,500 sq. ft. footprint) chemical processing facility that will manufacture Sulfuryl Fluoride. The facility will replace an existing facility that processes SF and Methyl Bromide (currently being phased out due to its ozone depleting status).	Neg	06/17/2002
1998012028	Caltrain Maintenance and Storage Facility Peninsula Corridor Joint Powers Board --Santa Clara As part of the construction of a new storage facility, a fiber optic line will be relocated from the northwest side of bridge No. 4, across a dirt lot to the southwest side of Bridge No. 3. The project is located at the UPRR tracks along the Guadalupe River in San Jose, Santa Clara County. CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2002-0044 pursuant to Section 1601 of the Fish and Game Code to the project operator, Cathi Zammit/Caltrain.	NOD	
2000031006	Atascadero State Hospital Security Fence Project Mental Health, Department of Atascadero--San Luis Obispo The project consists of building a 16-foot high ground-level security fence along the southwestern perimeter of the hospital. The new 16-foot high fence would cross an unnamed drainage in two places. Installation would entail the excavation of approximately 5.9 cubic yards of soil from the bed and bank of the stream. A revegetation plan shall be implemented according to the plans submitted to the Department. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement Number R3-2002-0325 pursuant to Section 1601 of the Fish and Game Code to the project operator, Paul Helwer, Project Director/State of California-Department of General Services. 	retail, restaurant, office and meeting/multipurpose uses. Total square footage of the building will be 124,418 gross (rentable area plus service area) and 96,981 net (or rentable area) square feet. The building will be a maximum of five stories where it fronts on West Valley Boulevard, decreasing to three stories along Bencamp Street.		
2002031058	Copelands Project San Luis Obispo, City of San Luis Obispo--San Luis Obispo A large new project has been proposed on two sites in downtown San Luis Obispo. The project includes two main components, which are: Court Street --a three level mixed-use building consisting of about 62,000 square feet of floor area and including retail uses, restaurants and offices to be constructed on the City parking lot. Palm/ Morro Office/ Parking Structure--a building containing five levels of parking with a total of 243 parking spaces and about 16,000 square feet of office space at the Palm Street level.	EIR	07/08/2002
2002052087	San Martin Transfer Station Expansion Santa Clara County --Santa Clara The proposed project consists of the redevelopment and expansion of the San Martin Transfer Station, which is owned and operated by South Valley Disposal and Recycling, Inc. The transfer station, located on Llagas Avenue in San Martin, has been operating at this site for 20 years. The project encompasses three existing parcels, two of which are on the site of the existing transfer station. The project proponent proposes to increase the capacity of this facility from 250 tons per day to a peak of 1,000 tons of municipal solid waste per day. This would be achieved by modifying the existing facilities. The proponent also plans to relocate its fleet vehicle parking and maintenance, administration and other services from a location in Gilroy to the parcel adjacent to the transfer station.	NOP	06/18/2002
2002052088	Golden Gate Park Concourse Authority Projects San Francisco, City and County of San Francisco--San Francisco Improvements in Golden Gate Park to comply with Proposition J. The 1998 Golden Gate Park Revitalization Act, including an underground parking facility with 800-1000 spaces in the music Concourse area, and landscaping and surface improvements, removal of 800-1000 surface parking space, and other transportation improvements throughout Golden Gate Park. 2002052029	Updated Housing Element Corte Madera, City of Corte Madera--Marin This is an update of the Corte Madera General Plan Housing Element.	EIR	07/03/2002
2000121082	Morro Bay State Park Campground Rehabilitation and Road Realignment Parks and Recreation, Department of Morro Bay--San Luis Obispo The proposed project would 1) rehabilitate the campground, including a new entrance station, realignment of campground loop roads, construction of paved campsite parking spurs, replacement of park furniture, and installation of new shower/restroom buildings; 2) expand day-use facilities between the campground and marina, including installation of new picnic sites, campfire center, parking area; and 3) realign Lower State Park Road.	FIN	
1999122059	Planned Development Rezoning (File No. PDC98-12-104) for FMC site San Jose, City of San Jose--Santa Clara The site contains approximately 100 acres located southwest of Coleman Avenue, northwest of Newhall Street, northeast of the Southern Pacific Railroad lines, and east of the jurisdictional boundary with the City of Santa Clara. The project consists of a Planned Development Rezoning from M-4 to A(PD) Planned Development for the FMC Master Plan to allow development of up to 3.0 million square feet of office, R&D, retail, hotel, car rental and airport parking uses.	NOP	06/19/2002
2002051116	COSTCO Commercial Complex San Dimas, City of San Dimas--Los Angeles This proposed development project includes the following: 148,000 square foot Costco warehouse/retail facility with a tire center and a gasoline service station; 3,500 square foot drive-thru fast-food restaurant; 7,000 square foot "quality" restaurant; two retail shops (8,000 square feet each) totaling 16,000 square feet; and, two major retail shops (15,000 and 30,000 square feet) totaling 45,000 square feet.	NOP	06/19/2002
2002051114	Tentative Tract Map, Case No. 02-016 Yucaipa, City of Yucaipa--San Bernardino Tentative Tract Map to create 33 residential lots on 12.3 acres; Major variance for lot width-to-depth ratio exceeding 1:3 on 13 lots traversed by Yucaipa Creek; Project Density is 2.7 lots (Dwellings) per acre (One Dwelling Per Lot).	Neg	06/19/2002
2002051115	Elliot Field Station Structural Engineering Field Test Laboratory University of California, San Diego La Jolla--San Diego Project would be constructed in two phases of development. The first phase would consist of the bridge abutment testing operation to observe soil foundation structural interaction. This phase would also include site grading, creation of an open storage area, and the construction of new access to the site from the Elliott Field Station main access road. A temporary trailer and generator will be placed on the site to support this research until Phase II is implemented. The second phase would consist of development of a high performance outdoor shake table and high energy impact simulator to be used for seismic and materials testing. Phase II would also include the construction of one or two buildings with a total size of approximately 4,000 gsf to house office space/ control room and power	Neg	06/19/2002

2002052096	Visser Final Map Subdivision /Special Permit/Lot Line Adjustment Humboldt County --Humboldt A Final Map Subdivision for the creation of 15 parcels with a Special Permit for lot Size Modification to allow for parcel sizes between 0.6 to 1.7 acres. Parcels A and B are proposed for drainage improvements and the detention pond. The parcels will be served by community water and sewer. A Street Name Change for the establishment of Visser Court. A Lot Line Adjustment to adjust the northern property line of APN 509-041-39 to the centerline of Visser Court.	Neg	06/19/2002
2002052097	Redevelopment Plan for the Central San Rafael Redevelopment Project Area San Rafael, City of San Rafael--Marin The Redevelopment Plan was first adopted in 1974. This Third Amendment will increase the allowable tax increment allocated to the Agency from \$240 Million to \$959 Million.	Neg	06/19/2002
1987021804	The Saugus Colony Fish & Game HQ --Los Angeles CDFG is executing a Lake and Streambed Alteration Agreement #R5-2002-0066, pursuant to Section 1603 of the Fish and Game Code to the project applicant, Peter Novak, the Saugus Colony Limited, 11740 San Vicente Blvd. Suite 208, Los Angeles, CA 90049. The applicant proposes to grade and riprap approximately 0.122 acres for a storm drain outlet.	NOD	
1999081112	Sewer Group Job 619 San Diego, City of San Diego, Mission Hills--San Diego CDFG is intending to execute a Lake and Streambed Alteration Agreement pursuant to Section 1601 (SAA #R5-072-99) of the Fish and Game Code to the project applicant, the City of San Diego. The applicant proposes to renovate and replace approximately 10,825 linear feet of six inch and eight inch concrete sewer mains, laterals, and manholes within the Uptown Community Planning Area. The project is located within various alleys, streets and easements from Sunset Boulevard on the north to California Street on the south and includes two vegetated canyons.	NOD	
2001081157	2nd Avenue/12th Street Roadway Project Fort Ord Reuse Authority Seaside, Marina--Monterey The project will remove an existing two-lane roadway and construct a four lane divided roadway approximately 2.8 miles long within a 140 foot right of way. The proposed expansion largely follows existing roadways, except for a stretch of road along 12th street. FORA will also construct bicycle lanes and sidewalks, improve drainage facilities, and relocated utility facilities. The project will result in the incidental take of approximately 782 sand gilia plants, a State threatened species, at the Intersection of 12th Street and Imjin Road. FORA will mitigate impacts from the project off-site.	NOD

2001111010	North Coast Canada Goose Hunting 2002 Fish & Game Commission --Humboldt Hunting North Coast Canada Geese in Humboldt County.	Oth	06/20/2002
1988012019	Belmont Village Assisted Living Facility Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles The Brighton Gardens entitlement, originally approved in 1999, allows the construction of a new assisted living facility for senior citizens on a 4.57-acre lot located within the City's Institutional zoning district. The revisions proposed by BelmontCorp involve no changes to the height of the structure (which remains a three-story structure measuring 35 feet above finished grade), nor the number of units (a total of 122 units, of which 98 units will be used for assisted living and 24 will be used for dementia units). The modifications proposed by the applicant consist of: an increase in the structure's floor area from 74,774 square feet to 92,950 sf; a reduction in the total length of the building along Crestridge Road by 17 feet; an increase in the total depth of the building by 18 feet; and, an increase in the amount of grading from 160,000 cubic yards to 163,060 cubic yards. The modified earth movement is not a balanced operation as it consists of 89,500 cubic yards of cut, 73,560 cubic yards of fill and 15,940 cubic yard of export. The Brighton Gardens project had balanced grading of 68,660 cubic yards of cut and 68,660 cubic yards of fill. Pursuant to Section 17.78.040 of the City's Municipal Code, the project modifications require City Council approval of a revision to existing Conditional Use Permit No. 195 and Grading Permit No. 1903.	SIR	06/21/2002
1987120202	Nevin Avenue Elementary School Addition Los Angeles Unified School District The proposed project includes the construction a 2-story, 12 classroom, 15,600 square foot building, 8,000 square feet of new playground area, and a new school parking lot including approximately 60 parking stalls. 2002022094	State Route 89 Roadway Realignment Near County Road A-15 Caltrans --Plumas Safety and operational improvements consisting of the realignment of a 0.5 mile section of roadway to eliminate three non-standard curves; construction of four-foot wide paved road shoulders; reconfiguration of the County Road A-15 intersection and construction of a southbound left-turn pocket; and replacement of the existing cross culvert that conveys Calf Pasture Creek with a concrete box culvert.	NOD	
2002032152	Klopka Vineyard Timberland Conversion, 01-489, 3.4 acres Forestry and Fire Protection, Department of Calistoga--Napa This project consists of the issuance of a Timberland Conversion permit exempting 3.4 acres of timberland from Forest Practice Act tree planting requirements. The area will remain zoned Agricultural Watershed District following the removal of forest growth for development of a vineyard.	NOD	
2002042087	Boating Instruction and Safety Center (BISC) Eureka, City of Eureka--Humboldt The project is the construction of an approximately 16,500-square foot Boating Instruction and Safety Center (BISC) and the construction and/or improvement of Waterfront Drive from "G" to "K" Streets; and the demolition and/or removal of the existing irrigation system, landscaping, paving, and benches located at the "West Plaza" park. The BISC will include a reception/entry area, training rooms, conference rooms, locker/shower/restrooms, laundry room, multipurpose room and kitchen, director's office, various storage and equipment rooms, and boat storage bays. In addition, the BISC will include the construction of a fenced outdoor boat operations area, a paved parking lot, landscaping, and the construction of a public walkway along the full frontage of the property on Humboldt Bay. The proposed waterfront walkway will connect to the walkway at the Adorni Center. The construction and improvement of Waterfront Drive between "G" and "K" Streets will require the construction or improvement of a street section that generally includes two travel lanes, a bike lane, and pedestrian sidewalk; it will require, within the Waterfront Drive right-of-way, the extension of utilities, including storm drain, water and sewer; and the extension and undergrounding, as necessary, of telephone, cable TV, power, and natural gas lines. To facilitate the project, the City will be required to process and approve a number of applications, including: Coastal Development Permit; Design Review; Lot Line Adjustment; Street Vacation; Surplus of City Property; and establishment of an Underground Utility District.	NOD	
2002059041	E.A. 38024 Riverside County Transportation & Land Management Agency Temecula--Riverside This is a Conditional Use Permit application to legalize an existing 5.59 acre paintball recreation park. No grading, except for clearance of brush as required by the Riverside County Fire Department for fuel modification, or habitable structures are proposed pursuant to this permit. Two existing storage containers are located on site to store paintball equipment, safety gear for players, video monitors, first aid supplies and fire extinguishers. No hazardous, flammable or caustic materials are used or stored on site. "Paintball" material used is non-toxic, bio-degradable and water soluble.	NOD

2002051126	Surface Mining Permit No. 161, Revised No. 2/Environmental Assessment No. 38448 (R-C Sand and Gravel) Riverside County Planning Department Indio Hills, Riverside--Riverside The project plan proposes to continue mining the site as approved under Surface Mining Permit (SMP) No. 161R1, only in an expanded capacity. SMP No. 161R2 would expand the existing permitted disturbed area of 104.5 acres total permitted disturbed area to 360.0 acres. This revised plan proposes an increase in annual production from 300,000 to 900,000 tons per year. This plan also a total of 25 years of project life (permit expiring in 2027) thus resulting in a net increase from 2,400,000 tons of sand and gravel currently permitted to 28,000,000 tons to be produced over the life of this permit. In addition to acreage and production increases, the project plan intends to construct and operate one concrete block plant on the site. The site is currently in operation under SMP No. 161R1, issued in 2001 (original SMP No. 161 was issued in 1987). The entire project site (leased acreage) encompasses 440 acres.	Neg	06/21/2002
2002051128	Minor Residential Subdivision, TPM 20506, Log No. 00-14-010 San Diego County Department of Planning and Land Use --San Diego Proposes to develop 2.42 acres into three parcels ranging in size from 0.62 to 0.90 net acres, with a 0.50-acre minimum lot size. An existing home is located on-site on proposed parcel 2. The remaining two lots will be developed with single-family homes and accessed through new driveways.	Neg	06/21/2002
2002051129	Hummel Drive Road Extension Santa Barbara County Santa Barbara--Santa Barbara Santa Barbara County Public Works Department proposes to extend Hummel Drive, a north-south running collector road, located east of State Route 135 in Orcutt. The roadway would include two travel lanes, sidewalks and on-road bike lanes and would span the area between Hobbs Lane and Mooncrest Lane.	Neg	06/21/2002

2002052112	Grizzly Peak and Skyline Boulevard 3-Lot Subdivision Oakland, City of Oakland--Alameda The proposed project entails subdivision of a 4.29-acre hillside parcel into three lots. The project site has frontage along Grizzly Peak and Skyline Boulevard. Two of the lots would be approximately 25,000 s.f. in size and the third lot would be the remainder of the site, approximately 3.14 acres. The three parcels would be served by a shared private access easement (PAE) from Skyline Boulevard. No access is proposed from Grizzly Peak Boulevard. The project repairs and improves an existing storm water facility onsite and proposes dedication of a public trail easement from the Skyline Boulevard frontage to connect to an existing public trail on the adjacent City park land. 2001072046	Environmental Water Account Water Resources, Department of --San Joaquin, San Francisco, Sacramento Pursuant to the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA), the California Department of Water Resources (DWR) and the Bureau of Reclamation (Reclamation) will prepare an EIR/EIS for implementing the Environmental Water Account (EWA) as described in the Programmatic Record of Decision for the CALFED Bay-Delta Program, dated August 28, 2000. A draft Environmental Impact Report/Environmental Impact Statement (EIR/EIS) is expected to be available in late summer 2002. The CALFED Bay Delta Program is a long-term comprehensive plan to restore ecological health and improve water management for beneficial uses in the San Francisco Bay/Sacramento-San Joaquin Delta (Bay-Delta) estuary system. The agencies that signed the Record of Decision/Notice of Determination (ROD) for the Final Programmatic Environmental Impact Statement/Environmental Impact Report on August 28, 2000 committed to implement the CALFED Bay Delta Program. The Environmental Water Account (EWA) is one component of the long-term comprehensive plan adopted in the CALFED Bay Delta Program ROD. The EWA was established to provide a supplemental water supply for the protection and recovery of fish beyond what currently exists through the pre-CALFED Program environmental baseline (Tier 1). As part of the Multi-Species Conservation Strategy Conservation Agreement and the U.S. Fish and Wildlife Service National Marine Fisheries Service biological opinions, the CALFED agencies have committed to specified conditions and legal requirements based on the availability of three tiers of assets or alternative sources of project water supply.	NOP	06/26/2002
2002051143	Riverside County General Plan Riverside County --Riverside The proposed General Plan is an attempt to promote a more focused and balanced pattern of growth that accommodates the demand for housing, employment opportunities, and public facilities and services while minimizing the impacts of increasing urban development. The proposed land uses are shown for the entire unincorporated County in Table 2.B of the Initial Study. Land uses are further divided into the 19 Area Plans, March Air Reserve Base, and those areas within the County territory not part of an Area Plan. Detailed depictions of land use within the County as a whole and the various Area Plans can be viewed at http://www.rcip.org . In addition to the proposed General Plan, the proposed	NOP	06/26/2002

No increase in aggregate production.	Neg	06/26/2002
2002052132	Draft Bernal Property Phase II Specific Plan Pleasanton, City of Pleasanton--Alameda Phase II Specific Plan (318 acres) to accommodate a series of potential future Public and Quasi-Public uses within an Open Space/ park-like setting.	Neg	06/26/2002
1995043064	Boeger Annexation and Oakwood Subdivision Gridley, City of Gridley--Butte The project involves the annexation of a 76.2-acre parcel to the City of Gridley and subsequent residential development.	NOD	
1998031150	Whispering Hills Estates - Revised and Recirculated Draft EIR San Juan Capistrano, City of San Juan Capistrano--Orange The project consists of the development of a High School and 175 single-family residential units on the 356-acre site. The project includes an application for a rezone from "GM" Growth Management to "PC" Planned Community (with Comprehensive Development Plan (CDP)), and Hillside Management and Ridgeline. Exception applications are also part of the project. Of the 175 single-family residential units, 15 units are proposed in the West Canyon and 160 units in the East Canyon. The high school site is to be located in the northern portion of the East Canyon of the property. Primary access is proposed from Avenida La Mancha for the West Canyon and La Pata Ave. for the East Canyon residential and high school.	NOD	
2000121064	Re-formation of Bridges & Thoroughfares District No. 2 (EIA 00-09) Carlsbad, City of Carlsbad--San Diego Reformation of the existing Bridges and Thoroughfares District No. 2. The purpose of the reformation is to reallocate the costs of existing and future road improvements within District No. 2 among the properties in the District.	NOD	
2001102055	Corporate Campus Project Draft EIR Sunnyvale, City of Sunnyvale--Santa Clara Application for related proposals for a 79.91 acre site located at 1111 Lockheed Martin Way in an M-3 Zoning District. Certification of a Final Environmental Impact Report; Rezone from M-3 Zoning District to M-3/PD Zoning District; Special Development Permit for a 2,436,616 square foot office campus with a Floor Area Ratio of approximately 70%, a 60,000 square foot "Special Use" Building; a 350-room hotel; and structured parking facilities.	NOD	
2002012097	Stevens Creek Drop Structure Modification Santa Clara Valley Water District Mountain View--Santa Clara The project proposes to replace a concrete drop structure on Stevens Creek that acts as a barrier to steelhead migration with a structure designed to provide fish passage. The project is located in the City of Mountain View, Santa Clara County.	NOD

<u>Documents Received on Tuesday, May 28, 2002</u>			
	CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2002-0376 pursuant to Section 1601 of the Fish and Game Code to the project operator, Santa Clara Valley Water District.		
2002032109	Beyzade Modification to Mason Parcel Map Subdivision Humboldt County --Humboldt A modification to the Development Plan for Parcel Map No. 3116 (PMS-07-94) to allow for the construction of a 3,782 square foot single family residence and attached 1,528 square foot garage. The applicant seeks a reduction of the approved wetland buffer from 25' wetland buffer setback to the subject wetlands as delineated by Winzler and Kelly in October 1994 for Roy Mason. The applicant proposes to construct a 110' wide structure and therefore will encroach up to 15' into the existing buffer leaving a 10 foot buffer from the southern boundary of the wetland. The building footprint will not result in the removal of any riparian vegetation.	NOD	
2002041100	Clinton Corner Garden Grove Unified School District Garden Grove--Orange The proposed project consists of the establishment of Clinton Corner; an educational resource center. The project will include the placement of ten portable classrooms, one portable restroom, one computer lab and one administration unit. The facility will serve as an educational resource center, offering adult education, child care, early childhood education and after school programs for elementary and high school students.	NOD	
2002042045	McKenney Final Map Subdivision Humboldt County Planning Department Eureka--Humboldt Approval of a tentative map for the subdivision of an approximate 9.2 acre parcel into 22 lots ranging in net size from 5,005 square feet to 5.9 acres. The applicant requests a density bonus to allow for lot sizes less than the 6,000 sf minimum under Section 3602 of the Eureka Community Plan. The project will be served by community water and sewer services from the Humboldt Community Services District. The project also involves an exception request to allow for lots 6, 9, and 10 to be served by a common 20- foot access frontage; Lots 9 and 10 are each proposed to be flag lots with 10 foot wide access strips. This project was previously approved as FMS-05-97 effective March 30, 1999. The project expired prior to recordation of the final map. The project has been modified to include a stormwater detention basin to address stormwater drainage.	NOD	
2002059061	South Fork Gualala Road Improvement Project Sotoyome Resource Conservation District --Sonoma Sotoyome RCD and Gualala Redwoods Inc. propose to implement road improvements to reduce erosion and sedimentation. The project will improve water quality and salmonid habitat in the main stem and tributaries of the Gualala River. The project includes installation of rolling dips, culvert maintenance or replacement, and outsloping roads. The project is located in Section 22, Range 14W, Township 10N, MDB&M, in the County of Sonoma. CDFG is executing a Lake and Streambed Alteration Agreement Number R3-2001-1072 pursuant to Section 1601 of the Fish and Game Code to the project operator, Kerry Williams/ Sotoyome RCD.	NOD

	<p>accommodate a maximum of 1,600 middle school students and 3,500 high school students. The 40-acre adjacent parcel will include additional playfields for both schools and additional parking for the playfields and high school. In addition, the project proposes to extend and cul-de-sac 16th Street to be used as a parent pick-up/drop off location for Olive Pierce Middle School. A walkway will also be constructed which will allow pedestrian access from 16th Street to the middle school. Expansion of the middle school campus includes expanded administration and gymnasium facilities, additional classrooms, restroom facilities, hardcourts, and parking within 44,500 to 48,500 square feet. Expansion of the high school campus includes expanded administration and gymnasium facilities, additional classrooms, laboratories, restrooms, and a library/instructional media center within 253,000 to 280,000 square feet.</p>		
2002052138	<p>Sierra Community College/Western Placer Unified School Sierra Joint Community College District Lincoln--Placer</p> <p>The campus is proposed to be constructed and operational in 2003-04. The new college campus will occupy 40 acres and will be developed in two phases. Phase 1 will include 65,000 square feet of building floor area and Phase 2 will include an additional 65,000 square feet of building floor area. The primary buildings will include classrooms, laboratories, administration buildings, and a gymnasium or fitness center. At full build-out the campus will accommodate 2,500 full-time equivalent students, and 30 full-time and 75 part-time employees. College classes generally occur during three distinct time periods during weekdays: 7 AM to 2 PM, 2 PM to 6 PM and 6 PM to 10 PM. It is anticipated that in Phase 1 up to 700 students will be on campus at any given time and in Phase 2 a maximum of 1,400 students would be on campus simultaneously. The first phase of construction is planned to begin in 2005 and end in 2006. The second phase is planned to commence in 2010. Facilities expected to be shared by the two campuses include an instructional building with approximately 5,000 to 8,000 square feet of floor area and a performing arts theater (500 seats). The theater will be used during school hours, as well as evenings and weekends for school and community cultural events. An outdoor amphitheater may be included. Other shared facilities will include a campus center building with food services and bookstore, roadways, pedestrian paths, and certain parking facilities. It is intended that shared buildings be located at the junction of the two campuses. The campus will also include a public library with 30,000 square feet of floor area developed and operated jointly by the two school districts and the City of Lincoln. Shared facilities will be operated and maintained under reciprocal agreements, which may include leases.</p>	NOP	06/27/2002
2002051149	<p>Palomar College Athletic Fields Project Palomar Community College District San Marcos--San Diego</p> <p>Consists of the construction of a new baseball field (8.6 acres), a new soccer/practice field (5.3 acres) and associated facilities within the northern portion of the existing San Marcos campus. The baseball field would be used by Palomar College league/ intramural teams. Both Palomar College league/ intramural teams and the City of San Marcos Park and Recreation teams would use the proposed soccer field. The project is intended to accommodate an increase in college sport/ intramural activities and community recreational needs.</p>	Neg	06/27/2002

2002051150	Groundwater Treatment Facility Glendale, City of Los Angeles, City of--Los Angeles 600 sq.ft. Ground Water Treatment Facility used to remove volatile organic compounds (VOC) from Groundwater.	Neg	06/27/2002
2002051152	EAKC5-02; CUP 3 MAP 138 (Texaco California Inc. By WZI Inc) Kern County Planning Department --Kern A conditional use permit to allow the construction and operation of a passive solar collection facility to provide energy to the surrounding oilfield.	Neg	06/27/2002
2002052129	American Canyon Ecosystem Enhancement Project American Canyon, City of American Canyon--Napa The project calls for improved water circulation and tidal influence to the area by breaching several levees. This action will help to establish tidal and riparian marsh conditions similar to those of the historic Napa River marsh, and enhance site conditions for vegetation and wildlife. The project will establish habitats for sensitive species of direct concern identified in the CALFED Ecosystem Restoration Program Plan.	Neg	06/28/2002
2002052130	Eastside College Preparatory School Project East Palo Alto, City of East Palo Alto--San Mateo Approval of a Master Plan to allow the phased expansion of the school to a total of 136,401 square feet, serving 280 studnets (160 living on-site). Project requires cancellation of Williamson Act contract on two parcels of the site and demolition of existing residences, greenhouses and ancillary structures.	Neg	06/28/2002
2002052131	Restoration of Mahon Creek at 1801 Fifth Avenue San Rafael, City of San Rafael--Marin Request for an Environment and Design Review Permit for the restoration of Mahon Creek. The project involves clearing the stream bed and banks of all debris and exotic plants and replanting with native shrubs and trees. A six foot black chain link fence is proposed to be installed along the tip of the east and west banks.	Neg	06/27/2002
2002052133	SureWest Telecommunications Tower Project at UC Davis University of California Davis--Yolo, Solano The University of California, Davis (UC Davis) proposes to partner with SureWest, a Roseville, California based telecommunications company, to exchange rights to use UC Davis property (for SureWest to construct and operate telecommunications facilities) for regional fiber optic connections. The proposed project includes the construction and operation of a 155-foot tall SureWest telecommunications tower with ancillary structures in the west campus, located north in the south campus, located west of Old Davis Road. An approximately 750-foot long telecommunications conduit would be installed to connect the proposed Controlled Environment Facility to an existing SureWest conduit located south near the intersection of Old Davis Road and the Union Pacific Railroad Tracks. 	the width on one boulder at the tip. The total volume of placed boulders will be about 30 yards or 10 yards per deflector. Issuance of a Streambed Alteration Agreement Number R3-2002-0183 pursuant to Fish and Game Code Section 1603.		
2002058413	Oakhurst Country Club Tree Trimming Fish & Game #3 Clayton--Contra Costa As part of the golf course maintenance at the Oakhurst Country Club, the operator proposes to remove and prune approximately 4,000 square feet of riparian vegetation growing in and around Peacock Creek, just east of the 18th hole, in Clayton, Contra Costa County. Treatment of vegetation growing along the southern bank shall be as follows: Cottonwood trees may be cut no closer than 4' to ground level, willow trees shall remain at their existing height but may be pruned to allow for "windows" through the trees. Shrubs and low growing vegetation shall not be impacted. Issuance of a Streambed Alteration Agreement Number R3-2002-0147 pursuant to Fish and Game Code Section 1603.	NOE	
2002058414	Hollow Tree Creek Enhancement Fish & Game #3 --Mendocino Increase pool habitat and instream cover at 223 sites on Hollow Tree Creek by installing log structures. Issuance of a Streambed Alteration Agreement Number R3-2002-0302 pursuant to Fish and Game Code Section 1601.	NOE	
2002058415	Drainage Repair Using Rock Over Impervious Material Fish & Game #3 --Mendocino Due to unstable soils, landslides, and slippage, work on Highway 101 has been compromised and existing drainage systems have failed. This project will correct the problems and reduce the risk of future problems on the highway. The work will consist of the enlargement of the buttress fill, reconstruction of the two failed drainage systems, and the installation of approximately 55 linear meters of rock over an impervious layer in the unnamed drainage that leads to one of the drainage systems. Existing riparian and upland vegetation will be removed to accommodate the liner rock and this stretch of stream will not be able to support riparian vegetation in the future. The newly constructed channel will be approximately 0.5 meters at the bed and the rock will extend up 0.7 meters on the south and slightly higher on the north. Issuance of a Streambed Alteration Agreement Number R3-2002-0270 pursuant to Fish and Game Code Section 1601.	NOE	
2002058416	Repair of Damaged Section of Cholame Creek Bank Fish & Game #3 --San Luis Obispo The proposed project will repair a damaged section of concrete bank protection in Cholame Creek along Highway 46 at PM 52.3 in San Luis Obispo County. The repair work will remove the existing panels that were undermined and have slipped into Cholame Creek. In place of the failed slabs, rock slope protection (RSP) will be installed in the same footprint as the concrete it is replacing. Bank excavation will be necessary to dig the toe trench which will allow the RSP to conform to the existing grade. The length of the repair is approximately 44 meters out of a total of approximately 200 meters of concrete slab slope protection. The work area will need to be dewatered during the repair (approximately 15 days) and	NOE

	<p>this will be accomplished by constructing a coffer dam diversion upstream of the work area. Flows from the creek will be diverted around the work site via a 1.219 meter culvert in the creek. Flows will be released into an instream siltation basin to be established behind a downstream coffer dam. A silt fence will also be erected in the stream to further isolate the construction area. Upon completion of the work, the silt from behind the silt fence and siltation basin will be removed. When this is done, the silt fence upstream and downstream coffer dams will be removed and the streambed returned to the pre-project grade. Issuance of a Streambed Alteration Agreement Number R3-2002-0293 pursuant to Fish and Game Code Section 1601.</p>		
2002058417	<p>Penetration Drilling to Determine Properties of Substrate Fish & Game #3 --Mendocino</p> <p>This project is the initial work for the larger Feliz Creek bridge retrofit project. This work will consist of standard penetration testing and drilling to determine the geotechnical properties of the substrate. Feliz Creek is an intermittent creek in this area and supports steelhead. The work will consist of staging a drilling rig either on the bridge deck or possibly in the dry streambed, and drilling through the bridge decking and installing steel castings through the decking or into the soil below the bridge. The steel casting will contain drilling fluids, drill rod and bit and will return the drill castings back to a tank located on the bridge. Once completed the hole will be filled with bentonite chips up to approximately 15 feet of the surface and the remaining 15 feet sealed with a bentonite/cement grout. Holes will be approximately 5" in diameter and average 30 meters deep with the deepest being generally not deeper than 60 meters. Work is expected to take place over a ten week period with one boring per bent for a total of ten test drillings. Issuance of a Streambed Alteration Agreement Number R3-2002-0169, pursuant to Fish and Game Code Section 1601.</p>	NOE

2002058436	Avian-Transmission System Mitigation Program Energy Commission Santa Cruz--Santa Cruz The purpose of this contract is to reduce avian fatalities and electrical outages caused by avian eletrocution and collisions with power structures. Objectives are to develop tools, technologies, and protocols to evaluate, mitigate, and reduce avian power structure problems, implement audit performance to evaluate effectiveness of such tools and technologies, and improve system reliability and compliance with State and Federal Laws protecting most birds. This meets the PIER goals of improving the energy cost/value of California's electricity by reducing costs associated with avian-caused power outages and retrofitting transmission systems with bird friendly designs; improving the environmental cost/risk of California's electricity by providing effective tools to reduce avian fatalities with utility structures; and improving the reliability/quality of California's electricity by reducing the individual projects designed to meet the stated objectives.	NOE	
2002058437	Energy Efficient Data Centers Energy Commission Berkeley--Alameda Develop metrics and obtain measured data that provides guidance to data center planners and designers in setting design parameters and design strategies. A "roadmap" will be developed in collaboration with industry professionals to define the research path and necessary market transformation steps to achieve efficiency in data center facilities. This project meets the PIER goals of improving the cost/value and the reliability/quantity of California's electricity.	NOE	
2002058438	Cool Roof Colored Materials Energy Commission Berkeley--Alameda The purpose of this contract is to monitor the performance of high infrared reflectivity (cool) colored roofing materials for introduction into the roofing market. Cooler roofs will result in lower attic and outdoor ambient temperatures, leading to	NOE

	less need for air conditioning and lower smog formation potential. This meets the PIER goals of improving electricity sufficiency, and improving the environment and public health.		
2002058439	Lighting Research Program Energy Commission San Francisco--San Francisco The purpose of this contract is to conduct a systematic lighting research program that creates new lighting technology and products that can save energy, reduce peak demand, and reduce pollution for the citizens of California. This meets the PIER goal of advancing science and technology with knowledge gained through innovative research and development of LED, HID and fluorescent lighting technologies and products.	NOE	
2002058440	Extending the Clean Power Estimator to add an Efficiency Module to the Clean Power Estimator Software Energy Commission Napa--Napa The purpose of this contract is for extending the Clean Power Estimator to add an efficiency module to the Clean Power Estimator software. This meets the PIER goal of increasing the knowledge base of energy efficiency and renewable energy options.	NOE	
2002058441	Distributed Utility Integration Test Energy Commission San Ramon--Contra Costa The purpose of this contract is to test the feasibility and value of co-location and integration of a multiple, diverse distributed energy resources (DER) into the low voltage electricity distribution system. Multiple DERs will be installed within electrical interaction proximity of each other to allow for their aggregate benefits and operational issues to be evaluated. This meets the PIER goal of Improving the Reliability/Quality of California's Electricity and Improving the Safety of California's Electricity by determining the impact of large penetrations of DER into the distribution system.	NOE	
2002058442	Development/Demonstration of Methodology to Assess Value of Distributed Generation and Demand Reduction to the T&D Network Energy Commission Los Altos Hills--Santa Clara The purpose of this contract is to develop a methodology that will measure the impacts of a portfolio of distributed generation and demand reduction energy resources (DER) on the transmission and distribution (T&D) network down to the looped primary distribution feeder. This will allow direct observation of the impacts of DER at the voltage levels at which these resources will be interconnected. A combination of power flow models will be used to identify network constraints and determine what combination of the DER portfolio projects will improve power quality and reliability. These benefits will be valued in both engineering and economic terms. This meets the PIER goal of improving the reliability and quality of California's electricity system by identifying where DER can be located to help alleviated T&D capacity and congestion problems in the state. It also supports the goal of providing more choices to California consumers by helping overcome the barriers to the deployment of distributed energy resources.	NOE

<u>Documents Received on Thursday, May 30, 2002</u>			
2002058443	Portable Ambient Air Quality Monitor Development Energy Commission Sacramento--Sacramento The purpose of this project is to develop less costly and better ambient air monitoring of proposed power plant sites. Better data will enhance Environmental Justice and power plan analyses and thereby improve siting decisions by the Commission. The Commission is being asked to approve a \$500,000 interagency agreement with the California Air Resources Board for this project. The California Air Resources Board is also contributing \$500,000.	NOE	
2002058444	Energy Performance of Underfloor Air Distribution Systems Energy Commission Berkeley--Alameda The purpose of this contract is to develop UFAD system simulation software that can be used by design practitioners to calculate energy performance of UFAD systems and to compare the performance of UFAD systems with that of conventional systems. The availability of such a tool will help UFAD technology achieve its full potential by enabling the design of UFAD systems that are energy efficient, intelligently operated, and effective in their performance. This meets the PIER goal of Improving the Energy Cost/Value of California's Electricity by fostering the implementation of energy efficiency UFAD systems. This project also meets the secondary goal of Improving the Environmental and Public Health Costs by insuring that UFAD systems are properly designed to maximize their indoor environmental health and occupant comfort benefits.	NOE	
2002058445	Water and Wastewater Energy Efficiency Roadmap Energy Commission -- Availability of clean water at a low cost is essential to California's economy and continued prosperity. California needs to treat large quantities of water to meet both municipal and waste discharge requirements that are heavily dependent on electricity. Water treatment facilities in California use 4 percent of all the electricity used in California. An objective of the PIER program is to focus on RD&D activities that help improve the energy efficiency of water for urban, industrial, and agricultural consumption and efficient treatment of wastewater.	NOE	
2002058446	Power Plant Tracer Study Energy Commission Los Angeles, City of, Irvine--Los Angeles, Orange The purpose of this contract is to formulate and evaluate a short-range dispersion algorithm applicable to elevated sources in urban areas. This meets the PIER goal of improving the environmental and public health costs/risk of California's electricity by improving air quality dispersion models, that play an important role in assessing risk associated with exposure to air toxics pollutants in urban areas.	NOE	
2002058447	Assessing Building Vulnerability to Chemical or Biological Attack Energy Commission Berkeley--Alameda The purpose of this contract is to develop and test procedures for assessing the vulnerability of buildings to chemical or biological attack, including the impact on building energy systems. Additionally, the contract will produce a guidance document for vulnerability assessment and mitigation for high-profile buildings to reduce the likelihood and effectiveness of potential attacks, with consideration for impacts on the building energy systems. This meets the PIER goal of improving	NOE

	the environment, public health, and safety.		
2002058448	Methodology to Optimize Compressed Air System Efficiency Energy Commission Irwindale--Los Angeles The purpose of this contract is to establish a benchmark to optimize the efficiency of the compressed air systems. The contract will also develop the measurement procedures for attaining the efficiency benchmark by the users of the compressed air systems. Currently no such benchmark exists to quantify the compressed air system plan efficiency. Compressed air is the fourth largest commonly used utility in industry after electricity, water and natural gas. Establishing a benchmark and developing the measurement procedures will allow California utilities to develop a rebate program for improving the energy efficiency of the compressed air systems.	NOE	
2002058449	Small Scale Hydroelectric Project Demonstration Energy Commission Wasco--Kern The purpose of this contract amendment is to augment the work of the original contract by completing the work at a new site location, the Semitropic Water Storage District. The purpose of the original contract is to prove the technical, economic, and environmental suitability of the PowerWheel Technology for converting energy from low-head waterfalls into cost-competitive electricity. This meets the PIER goal of improving environmental quality, improving the reliability of California's electricity, and positively impacting California's state and local economies.	NOE	
2002058450	Gas Fired Heat Pump for Heating and Refrigeration in Food and Beverage Industry Energy Commission Fresno, Modesto--Fresno, Stanislaus The purpose of this contract is to demonstrate gas-fired hot water heat pump in food and beverage industries. This technology approximately doubles the energy efficiency of co-producing hot water and refrigeration. This meets the PIER goal of improving the energy cost/value of California's electricity.	NOE	
2002058451	Integrated Distributed Power System Using a PEM Fuel Cell and an Autothermal Cyclic Reformer Energy Commission Irvine--Orange The purpose of the contract is to further the development of a novel fossil fuel reforming technology known as Autothermal Cyclic Reforming (ACR), also known as Unmixed Reforming. The ACR process has significantly lower capital costs, higher fuel-to-hydrogen conversion efficiency, higher hydrogen purity (no sulfur or nitrogen), and lower emissions at small scales than the conventional steam reforming process.	NOE	
2002058452	Catalytic Combustion Retrofit of a Gas Turbine at Sonoma Developmental Center Energy Commission --Sonoma The purpose of this contract is to demonstrate successful long-term, ultra-low NOx (<3ppm) operation of a Xonon catalytic combustion module when installed and operated on an industrial gas turbine under typical institutional end-user conditions. This meets the PIER goal of improving the environmental and public health costs/risks of California's electricity.	NOE

2002058453	Xonon Ultra-Low Combustion Applied to Small, Multi-Combustor Gas Turbines Energy Commission Mountain View--Santa Clara The purpose of this contract is to develop a catalytic combustion system for achieving ultra-low emissions in small, multi-combustor gas turbines without the need for exhaust gas cleanup devices. This meets the PIER goals of improving the environmental and public health costs/risks of California's electricity by enabling the use of small gas turbines for distributed generation in situations where the cost and footprint requirements of exhaust cleanup systems to meet the mandated emissions levels would be prohibitive.	NOE	
2002058454	Ultra-Low NOx Combustion System for a 13.5 MW Gas Turbine Generator Energy Commission Santa Clara, San Diego--San Diego, Santa Clara The requested contract will co-fund research and development in the area of ultra-low emissions combustion control for gas turbine engines. The work co-funded under this contract includes combustor materials and manufacturing development, lab testing, engine testing and field demonstration of the Contractor's low NOx gas turbine combustor system. The requested co-funding is being requested in accordance with PEIR Program guidelines and in view of the State's need for distributed generation capacity without sacrificing environmental quality considerations. The Contractor will be working with very closely with Solar Turbines, Inc., of San Diego in an effort to bring this technology to commercial readiness and availability in their own Titan product lines. These engines will find rapid acceptance in the distributed generation market once the prohibitive cost of emissions mitigation is brought under control by successful implementation of Contractors combustion technology.	NOE	
2002058455	Experimental Study of Jet Mixing in Rich-Quench-Lean Combustors Contract #500-00-025 Energy Commission Irvine--Orange This contract will co-fund experimental studies in the field of jet mixing as applied to high temperature, high pressure combustion typical of conditions in gas turbines used for power generation. The results of these studies will provide data and understanding that will help in the development of ultra-low emissions combustion systems needed to assure minimal environmental impact of future generating systems.	NOE	
2002058456	Calaveras Fair Purchase Project 39th District Agricultural Association Angels Camp--Calaveras The proposed project consists of an acquisition of a vacant parcel of land, which is adjacent to fair property. The vacant parcel is approximately .2 acre in size, with no tenants legally or illegally on the property. Acquisition of this property will have minimal impact on the department's operation and maintenance costs; any costs will be absorbed in the existing budget. The property will be used to expand and make a main entrance into the fairgrounds.	NOE	
2002058457	North Bay Aqueduct Clean-out and Settling Pond Construction Water Resources, Department of Fairfield--Solano A "biofilm" of bacteria and algae has built up on the walls of the N.B. Aqueduct. A polyurethane "pig" will be pumped through the pipeline to clean biofilm from the	NOE

2002058458	<p>sides of the pipe. The material will be pushed into the Travis Surge Tank and a solution of biofilm and water will be pumped from the tank to a 10 million gallon pond which will be reconstructed on the site of the three existing smaller settling ponds.</p> <p>South Delta Improvement Program Exploration Drilling Project Water Resources, Department of Tracy--Contra Costa, San Joaquin</p> <p>The purpose of the South Delta Improvement Program Exploration Drilling Project is to collect geologic data on channel and land sediments. These data are necessary for the design and construction of various features of the SDIP, specifically a new intake structure and channel along the northern portion of Clifton Court Forebay, and radial gates at the four proposed permanent barrier sites at Old River, head of Old River, Middle River and Grant Line Canal-West. Data will be collected from drill cuttings at these six locations, for a combined total of 15 in-channel holes and 15 landside holes. Holes will be 60-130 feet deep and 4.5 inches wide. Additionally, 40 cone penetration tests will be conducted at the various sites. Sediment characteristics will be analyzed according to standard methods. South Delta Water diverters may benefit from completion of this project, as the collection of these data is necessary to designing the SDIP.</p>	NOE									
2002058459	<p>Los Angeles Unified School District, Proposed Aldama Elementary School Addition Site, Removal Action Workplan (RAW) Approval Toxic Substances Control, Department of Los Angeles, City of--Los Angeles</p> <p>The Removal Action Workplan (RAW) will implement clean-up procedures at the site for the immediate excavation, removal, and off-site disposal of soils impacted with elevated levels of lead. The RAW, prepared in accordance with Health and Safety Code Section 25356.1 (h)(1), includes the excavation and offsite disposal of approximately 115 cubic yards of the lead-impacted soil from Area 1. Excavation, sampling, and restoration activities are expected to occur over a two-day period. Approximately 115 cubic yards of lead-impacted soil will be excavated and confirmation samples will be collected to verify the specified cleanup goal (i.e., DTSC screening level of 255 milligrams per kilogram (mg/kg) has been achieved. During the proposed excavation, no students, faculty or unauthorized persons will be on the site.</p>	NOE

	active unit has reached capacity, the City is proposing to expand the capacity of the CSL. This expansion will be accomplished by excavating cover soil from the borrow area in such a manner that future waste disposal units will be developed. Once the active West Side Landfill has reached capacity, disposal activities will continue in the cells developed in the soil borrow area. Based on current data, it is projected that expansion of the CSL will provide the capacity to accommodate wastes generated in the City through the year 2031.		
2001052061	Highway Widening and Interchanges, SR 70/149/99 in Butte County Caltrans #3 Chico, Oroville--Butte Upgrade SR 149 to a four-lane expressway by constructing two additional lanes, shoulders and a median; construct freeway-to-freeway interchanges at the SR 70/149 and 99/149 intersections; rehabilitate existing SR 99 and 149 roadways; realign portion of Shippee Road and SR 70; reconstruct the SR 70/191 intersection; and construct driveway access roads.	EIR	07/15/2002
2001101132	Oil Drilling: 6801 Westminster Avenue Long Beach, City of Long Beach--Los Angeles Establish Oil Extraction Districts. Obtain the necessary oil and gas drilling permits and initiate exploratory drilling. If successful, extraction operations will continue for indefinite period of time.	EIR	07/15/2002
1989010088	Orange County Fair and Exposition Center Update Orange County Costa Mesa--Orange The proposed project will involve removing and replacing existing structures, constructing new additional structures, constructing additional parking areas, and establishing a coherent and thematic landscape, sign, and lighting plan. In general, this will result in a core of facilities surrounded by a parking area. The core of facilities will be divided into two general areas: a Park (Open Space) area and Campus (buildings) area.	NOP	07/01/2002
2002051156	Southwest Retail Center Bakersfield, City of Bakersfield--Kern Construction and operation of approximately 700,000 square feet of various retail commercial and service uses, anchored by several major "big-box" retail tenants.	NOP	07/01/2002
2002052143	Creekside Village Apartments Santa Rosa, City of Santa Rosa--Sonoma The EIR will evaluate two alternate proposals. The first alternative reflects the applicant's proposal to construct a 266 unit apartment complex and dedicate 6.59 acres for a city park. The applicant has also requested that an alternate plan ("Increased Park Plan") be evaluated at the same level as the proposed project. This alternate plan consists of 273 apartment units, with more land for the city park. The applicant proposes to build 266 apartment units, construct off-site water and sewer improvements, dedicate land within the Santa Rosa Creek setback for open space, and dedicate land around the Carillo Adobe for a public park. If the City of Santa Rosa or other public or non-profit entity accepts the offer of dedication, then at some future time, a new public park may be constructed and operated at the site of the Adobe. Revision to the Baylands Master Plan/Byxbee Park Master Plan to change the configuration and contours of the Park and 2). all subsequent local and outside agency development approvals to allow the construction of an integrated and multifunctional Environmental Services Center, consisting of a compost facility, a recycling drop-off/processing center, a permanent household hazardous waste facility, a material recovery facility/transfer station, a bin storage area, and an inert solids storage area for on or off-site recycling. The City currently operates a compost facility, a drop-off/recycling center, inert storage area, and a bin storage area at the project site.	Neg	07/01/2002
2002052142	Prescribed Burn Program at Lower Truckee River Tahoe Conservancy --Placer The California Tahoe Conservancy (CTC) proposes a program of prescribed burns within its holdings in the Lower Truckee River Watershed of the Lake Tahoe Basin. The program would reintroduce fire as a forest restoration management tool to modify and reduce project area fuel material, restore a resilient forest structure, and improve wildlife habitat. The program would include a series of planned controlled burns conducted over a period of up to several years. A sequence of follow-up burns would be required within a period of seven to twelve years to maintain the desired habitat. More intensive treatments will occur along the project area margins to create an area, defensible against the spread of wildfires, between the adjacent developed properties and CTC land. Burn sites within the 30-acre project area would be kept under control through the manual construction of fire barrier lines and use of existing roads and cleared areas as control lines. Emergency suppression equipment would be available at the project site for immediate response if the burn goes out of its prescribed limits. A smoke management plan, fire escape plan, and public information plan have been developed to address the potential hazards posed by a prescribed burn on the project site and to protect public health and safety. 2002058469	Adoption of School Developer Fees North Cow Creek Elementary School District --Shasta Obtaining of sufficient funds to construct, reconstruct or modernize school facilities throughout the school district.	NOE	
2002058470	Transfer of Coverage to El Dorado County APN 33-284-01 Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 886 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2002058471	Transfer of coverage to El Dorado County APN 34-152-08 Tahoe Conservancy --El Dorado Project consists of the sale and transfer of 786 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2002058472	Leasing of New Office Space Consumer Affairs, Department of Carmel--Monterey Department of Consumer Affairs, Contractors State License Board proposes to lease approximately 350 square feet of office space. The office will have approximately two employees performing general office duties.	NOE	
2002058473	Leasing of New Office Space Consumer Affairs, Department of Ontario--San Bernardino, Orange Department of Consumer Affairs, Contractors State License Board proposes to lease approximately 1705 square feet of office space. The office will have approximately twelve employees performing general office duties.	NOE	
2002058474	Bishop Cut Stream Flow Measurement Project-Data Collection by California Department of Water Resources Water Resources, Department of Lodi--San Joaquin The City of Lodi's Wastewater Treatment Plant discharges into Bishop Cut and the flow rate of discharged treated water has increased due to the population growth of Lodi. Therefore, adequate dilution rates are becoming more difficult to achieve within the Sacramento-San Joaquin Delta. The proposed Acoustic Velocity Meter (AVM) will measure the channels' actual flow rate, which is a key element in determining when to discharge treated water.	NOE
